

SkinPen Microneedling Care Recommendations

SkinPen Pre-Care Recommendations:

- Avoid excessive sun exposure/burns 24 hours prior to procedure
- Discontinue use of topical retinoids 24 hours prior to procedure
- Avoid treatment if you have active breakouts or open lesions
- Allows at least 24 hours after autoimmune therapies before a SkinPen precision treatment
- Wait 6 months following oral isotretinoin (Accutane) use

SkinPen Post Care—the first 24 hours:

- ONLY use the Skinfuse LIFT HG (rescue calming complex) which will be given to you in-office
- Stop all other products

For any questions concerning pre or post-care, please feel free to give our office a call at 703-461-7500 to speak with a Medical Assistant.
